SIgN Immunology Seminar

Prof Mala Maini

Division of Infection and Immunity, University College London, London

Living in the liver: adaptations of resident lymphocytes

Host
Dr Evan Newell
Singapore Immunology Network, A*Star/
Prof Antonio Bertoletti
Duke-NUS Medical School

Date
Monday
21 August 2017

Time
2pm – 3pm

Venue
SIgN Seminar Room
Immunos Building
Level 4
Biopolis

Mala will present recent data on liver-resident populations of T and NK cells and discuss their adaptations and roles in the healthy and HBV-infected liver.

Mala Maini is a Professor of Viral Immunology in the Division of Infection and Immunity at UCL, London, Deputy Head of Department and also works as a Consultant Physician in the viral hepatitis clinic. Her research is funded by a Wellcome Trust Senior Investigator award and grants from the MRC and industry. Her lab works on the pathogenesis and immunotherapy of hepatitis B.
