BIOMEDICAL IMAGING AT SBIC

for Singapore-Centric Diseases

WEDNESDAY 27 JAN 2021, 2PM – 3PM

From 13 Jan 2021 and in a multi-part series, SBIC's scientists will be engaging you in research conversations– ***Biomedical Imaging at SBIC for Singapore-Centric Diseases***.

Join us live on Zoom and

- Get updated on the bioimaging capabilities at SBIC;
- Learn about SBIC's ongoing work with our partners and how bioimaging can take your research forward;
- Connect with like-minded researchers on their challenges, insights and ask your burning questions!

Part 3, 27 Jan 2021 (Wed): 2pm to 3pm

Link to webinar here: https://tinyurl.com/SBIC27JanASTAR

Talk 1
"PET Imaging Strategies in Oncology"

Dr Julian Goggi
Group Leader, SBIC

Talk 2
"Advanced Data Analysis Methods for Improved Amyloid-PET Quantification"

A/Prof. Anthonin Reilhac
Principal Investigator
CIRC, NUS School of Medicine

Singapore Bioimaging Consortium (SBIC) is a national hub for biomedical research. We develop bioimaging applications and promote the co-ordination of national bioimaging efforts and initiative.
