ONLINE SYMPOSIUM

BRINGING SYNTHETIC BIOLOGY TO THE MARKET: AN AUSTRALIA AND SINGAPORE PERSPECTIVE

Synthetic biology promises to revolutionize many industries and improve the lives of people around the world. But, in order to make this promise a reality, synthetic biology needs to be commercialized. Around the world, synthetic biologists are being entrepreneurial and creating successful ventures that commercialize their research.

In this online event, co-organized by SINERGY and Synthetic Biology Australasia, we will host two panel discussions with entrepreneurs and founders from Australia and Singapore. The panellists will recount their experience in founding or investing in synthetic biology start-ups, the challenges they faced, and their insights on how we can make innovation easier.

STARTUP FOUNDER PANEL

ALVIN NG
ESCO ASTER

LING KA YI
SHIOK MEATS

ANNA EL TAHCHY
NOURISH INGREDIENTS

GUSTAVO DE CERQUEIRA
CLUSTER BIOTECHNOLOGY

ANNA TAO
CSIRO

INVESTOR PANEL

ALICE CHEN
ACCELERATOR LIFE SCIENCE PARTNERS

CHONG YOKE SIN
IGLOBE PARTNERS

PHIL MORLE
MAIN SEQUENCE VENTURES

DAVID TOH
NTUITIVE

Tuesday, 2 August 2022

10:00AM - 12:00PM (SGT)
12:00PM - 2:00PM (AEST)
