Organized by the Cancer Science Institute of Singapore, NUS, Genome Institute of Singapore, A*STAR, Duke-NUS Graduate Medical School Singapore, Saw Swee Hock School of Public Health, NUS and National University Cancer Institute, Singapore, the **Inaugural Joint Breast Cancer Symposium 2015** brings together a unique local community of breast cancer experts from various disciplines such as oncology, surgery, pathology, molecular and cell biology.

This symposium aims to facilitate the advancement of a personalized approach to the local breast cancer management and implementation of new discoveries into clinical practice. Do not miss this unique opportunity for members of the oncology community to discuss major developments in breast cancer treatment and research in a collaborative forum.
