SBIC WELCOMES ISMRM !

SBIC Workshop on
Biomedical Magnetic Resonance

6 May 2016, 8.45am – 6.30pm
Breakthrough Theatrette
Level 4, Matrix Building, 30 Biopolis Street, Singapore

The Singapore Bioimaging Consortium (SBIC) invites you to attend the pre-ISMRM "Workshop on Biomedical Magnetic Resonance" to be held in Biopolis on May 6, 2016.

Scope

The Workshop will offer to all participants from Singapore and overseas a unique opportunity to listen to international experts on how to apply advanced pre-clinical and clinical MR imaging to understand pathological conditions such as Obesity & Diabetes, Cardiovascular diseases, Musculoskeletal diseases, Cancer and Neurological diseases. The sessions will encompass all aspects of translational imaging, including clinical problems, methodology and solutions.

The workshop will favor networking among participants from different disciplines and institutions.

SBIC promotes a nationwide multidisciplinary research platform where biologists, chemists, physicists, electrical/electronic engineers, computer scientists and clinicians work together on major public health issues using advanced bioimaging methods combined to metabolic medicine and molecular chemistry.

Registration

Admission is **free but registration is compulsory**. Attendance at the workshop is **limited to 180 participants by registration only.**

Lunch and refreshments will be provided.

Please register via email to Jenny_SEE@sbic.a-star.edu.sg with the following information:

1. **Full name (family name first) and title (e.g. Prof/Dr/Mr/Ms)**
2. **Organisation**
3. **e-mail address**

ADMISSION IS FREE

Closing date for registration: 29 April 2016 (Friday)
