DukeNUS Medical School

Signature Seminar Series

"Where do Ideas Come From?"

ABOUT THE LECTURE

At many times in your scientific lives, you will hopefully have ideas good or not so good - that will determine what you will do next. Where do ideas come from? My intention is to tell you where some of mine came from, and particularly those when I was as young as you. Some useful principles emerge.

Speaker: ***Professor Oliver Smithies, DPhil***
Department of Pathology and Laboratory Medicine
UNC School of Medicine

Host: ***Professor Patrick Casey***
Senior Vice Dean for Research
Duke-NUS Medical School

Date: ***Friday, 3 June 2016***

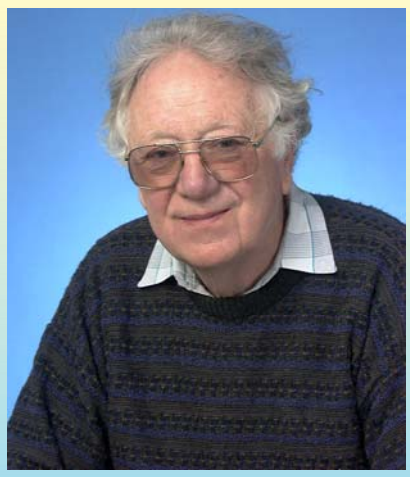

Time: ***11:00 AM - 12:00 PM***
(Lunch will be served at 12:00 PM)

Venue: ***Duke-NUS Medical School***
Amphitheatre, Level 2

Contact Person: ***Ms Cynthia Lim, Duke-NUS Research Affairs Department***
Email: cynthia.lim@duke-nus.edu.sg

ABOUT THE SPEAKER

Oliver Smithies is a Weatherspoon Eminent Distinguished Professor at the University of North Carolina - Chapel Hill. In 2007 he shared the Nobel Prize in Physiology or Medicine with Mario Capecchi and Sir Martin Evans for his discovery of principles for introducing specific gene modifications in mice by the use of embryonic stem cells.
