Molecular Imaging in Biomedical Research (MIBR) Workshop

Thursday, 19 November 2015

Aspiration Theatrette, Level 2M, Matrix Building, 30 Biopolis Street

09:30 – 10:00	Registration
10:00 – 10:05	*Opening and Introduction* Prof David Townsend (Director, Clinical Imaging Research Centre, Singapore)
10:05 – 10:55	*Lecture on "Translational molecular neuroimaging in small animal disease models"* Prof Balázs Gulyás (Professor of Translational Neuroscience, Lee Kong Chian School of Medicine, Nanyang Technological University, Singapore)
10:55 – 11:05	Q and A
11:05 – 11:30	*Talk on "Using fMRI to locate the neural correlates of ongoing changes in the experience of comfort, discomfort and pain"* Dr Stuart Derbyshire (Associate Professor, Clinical Imaging Research Centre, Singapore)
11:30 – 11:35	Q and A
11:35 – 12:00	*Talk on "Imaging functional network of mouse model of neurodegeneration"* Dr Chang Wei-Tang (Research Fellow, Neuroimaging Group, Singapore Bioimaging Consortium)
12:00 – 12:05	Q and A
12:05	**Networking and Lunch reception**
