

BIOMEDICAL IMAGING AT SBIC

for Singapore-Centric Diseases

DEBUTING WEDNESDAY 13 JAN, 2PM – 3PM

From 13 Jan 2021 and in a multi-part series, SBIC's scientists will be engaging you in research conversations– **Biomedical Imaging at SBIC for Singapore-Centric Diseases**.

Join us live on Zoom and

- Get updated on the bioimaging capabilities at SBIC;
- Learn about SBIC's ongoing work with our partners and how bioimaging can take your research forward;
- Connect with like-minded researchers on their challenges, insights and ask your burning questions!

Part 1- 13 Jan 2021 (Wed): 2pm to 3pm

Link to webinar here: <https://tinyurl.com/SBIC13Jan>

Talk 1

"Photoacoustic Imaging: Unravelling The Next Generation of Clinical Imaging in Oncology & Dermatology"

Dr Chris Ho

and

Dr Dinish U. S

Talk 2

"Sensing Through the Tissue in vivo: Diffuse Optical Spectroscopy for Vascular Disorders"

Dr Bi Renzhe

and

Dr Dinish U. S

Singapore Bioimaging Consortium (SBIC) is a national hub for biomedical research. We develop bioimaging applications and promote the co-ordination of national bioimaging efforts and initiative.
