

"How a fusion of the MYC & TAT protein turn up the immune system for therapeutic benefits of different cell types"

TUESDAY

8 FEB 2022, 1 - 2 PM

Dr. Yosef Refaeli

CEO, Taiga Biotechnologies

Dr. Yosef Refaeli is developing a new class of cell-based therapies utilizing autologous immune cells and allogeneic stem cells focused on harnessing the power of the immune system to fight solid tumors and infectious disease and on improving blood stem cell transplantation.

Zoom Meeting ID:
