Programme for Research in Epidemic Preparedness And Response (PREPARE)

A National Collaboration to be Ready for the Next Outbreak

PREPARE is a national funding initiative by NRF that reports to MOH and is administratively hosted in NCID. PREPARE aims to build peace-time capabilities, bring national expertise together and reach out internationally to allow Singapore to be better prepared in future. It comprises five Co-Operatives, namely Analytics, Disease & Behaviour Modelling; Environmental Transmission & Mitigation; Diagnostics; Vaccines & Therapeutics; and Regional Networks. There are two Cores for long-term capabilities, namely Databases, and Biorepository.

PREPARE aspires to bring together the best in Singapore to be ready for the next infectious disease outbreak. Commissioned studies and grant calls will start this year.

Please join us to find out more.

Programme

11:00 AM **Overview of PREPARE**
Prof Wang Linfa
Duke-NUS / Executive Director

11:10 AM **Analytics, Disease & Behaviour Modelling**
A/Prof Kelvin Bryan Tan
MOH / Co-Op Lead

11:15 AM **Environmental Transmission & Mitigation**
Dr Kang Chang Wei
A*STAR / Co-Op Lead

11:20 AM **Diagnostics**
Dr Sidney Yee
A*STAR / Co-Op Lead

11:25 AM **Vaccines & Therapeutics**
A/Prof Sylvie Alonso
NUS / Co-Op Lead

11:30 AM **Regional Networks**
A/Prof Yeo Tsin Wen
NTU / Co-Op Lead

11:35 AM **Biorepository Core**
Dr Shawn Vasoo
NCID / Core Lead

11.40 AM **Database Core**
Dr Barnaby Young
NCID / Core Lead

11.45 AM **Q&A**
