BD-MED Nutrition Lecture Series

Date: 20th April 2022 (Wednesday)
Time: 9:00 a.m. – 10:00 a.m.
Venue: Virtual Lecture *via* Zoom
https://nus-sg.zoom.us/j/84558879872?pwd=Snljd0p0YW5aNWJkRWFXOG1qZTBNdz09
Meeting ID: 845 5887 9872
Passcode: 477983

Our Speaker:

Dr. Jennifer McQuade

Assistant Professor, Department of Melanoma Medical Oncology, Division of Cancer Medicine,
The University of Texas MD Anderson Cancer Center,
Houston, Texas

Dr. McQuade is an Assistant Professor and Physician Scientist in Melanoma Medical Oncology. Dr. McQuade completed her medical training at Baylor College of Medicine, residency at the University of Pennsylvania, and her fellowship at MD Anderson Cancer Center prior to joining the faculty in 2018. Her research focuses on how lifestyle factors influence melanoma biology and the anti-tumor immune response with the goal of developing novel strategies to improve outcomes in melanoma. This includes work showing that obesity is paradoxically associated with improved outcomes published in Lancet Oncology in 2018 and work showing connections between diet, the microbiome and response to immunotherapy published in Science in 2021. She has translated these findings into novel interventional studies.

Hosted by:
Professor Teh Bin Tean
Director, Institute of Biodiversity Medicine
Deputy CEO (Research), NCCS

No registration is required.
All are welcomed.
