

CSI RESEARCH SEMINAR

Dr. Stephanie Koo

Nature Communications

Springer Nature

"Behind the Scenes: The Editorial Process of the Nature Portfolio Journals"

ABSTRACT

The talk will be divided into two parts -

1. An introduction to the journals within the Nature Portfolio and the editorial process of how editors make decisions on manuscripts that are suitable for their journals.
2. Insights into pursuing an editorial career.

BIOGRAPHY

Stephanie joined Nature Communications in September 2017. She received her PhD in cancer biology from National University of Singapore. In 2011, she joined Imperial College London for her postdoctoral work to study protein kinases and forkhead box transcription factors in breast cancer development and cancer drug resistance and following that she investigated inhibitors of Thousand-and-one amino kinases (TAOKs) as potential drug targets for breast cancer treatment at King's College London. She is handling manuscripts in areas of cancer cell biology and cancer molecular biology. She is based in the London Office.

TUESDAY, 23 AUGUST 2022

10AM - 11AM

LT37, TAHIR FOUNDATION BUILDING, MD1 (LEVEL 3)

CHAIR: PROF. ASHOK VENKITARAMAN
