

TLL Alumni Connect

Join us for an afternoon of science, community, and reconnection! Hear from our alumni and TLL researchers as they share their latest work across a range of exciting topics, and catch up with familiar faces along the way.

Time	Highlights
2.30 pm	Welcome Remarks - Dr Naqvi Naweed, Distinguished TLL Investigator
2.40 pm	Connecting Through the Alumni Portal Adeline Ng, Assistant Director, Corporate Development
2.45pm	Alumni Seminar - Integrated multi-omics Profiling of Plant-Derived Extracellular Vesicles for Targeted Skin Disease Therapy Professor Seong Wook Yang, Underwood Distinguished Professor, Yonsei University, South Korea
3.05 pm	Alumni Seminar: Brassinosteroid signaling regulates shoot apical meristem homeostasis via orchestrating cytokinin and WUSCHEL activity Professor Bo Sun, School of Life Sciences, Nanjing University
3.25 pm	Tea Break + Networking
3.50 pm	Seminar: "Roles of transformer 2 beta in <i>Aedes aegypti</i> " Goh Feng Guang, Research Fellow
4.10 pm	Seminar: "From <i>Lactuca</i> genomes to urban farms: new frontiers in lettuce research" Nunchanoke Sawettalake, Post-Doctoral Fellow
4.30 pm	Seminar : "Syntrophic microbiomes associated with methane suppressive irrigation in rice" Kennly Lau, Post-Doctoral Fellow
4.50 pm	End of Session
